## Overview

The EAS Qualifications Guide has been developed under the direction of the Electrotechnical Assessment Specification (EAS) Management Committee, to provide supporting information to Appendix 4 of the Electrotechnical Assessment Specification (October 2021).

This Guide is to be used by Enterprises, scheme applicants and Certification / Registration Bodies to identify relevant acceptable qualifications, as well as providing guidance for applicants when the required qualifications are not held or when qualifications held alone are insufficient.

## Introduction

Table 4A defines the application routes for persons who undertake Electrotechnical work, in order to apply to become a Qualified Supervisor or carry out Electrical Inspection and Testing. Tables 4B to 4F list the relevant routes for each work category and specify the accepted qualifications.

Successful applicants will be able to demonstrate at Assessment the required combination of technical knowledge, occupational training and practical skills. This is usually achieved through completion of an industry-approved apprenticeship, or, for experienced workers, through accredited qualifications using the Experienced Worker Assessment, as well as Recognition of Prior Experiential Learning (RPEL).

It is acceptable to permit new applications from an existing or previously recognised Qualified Supervisor, provided that they:

- i) have been a Qualified Supervisor within two years of the application; and
- ii) can provide a letter or similar evidence from the previous scheme provider confirming their Qualified Supervisor status and the scope of work previously assessed, which must be at least equal to the scope of work being applied for.

A Qualified Supervisor applicant will need to have at least 2 years' evidence of responsibility for the technical standard of electrotechnical work and evidence of ongoing Continuing Professional Development.

Due to the complex historical qualifications landscape, this guide may not be exhaustive.

If an applicant's electrotechnical qualifications are not listed in the following tables, please contact the relevant Certification / Registration body for further guidance. The Electrotechnical Skills Partnership (TESP) also provides guidance on electrotechnical qualifications to individuals and organisations.

Certification / Registration Bodies do not have discretion to accept qualifications that are not listed in Tables 4B to 4F. Any exceptions should be reported to the EAS Management Committee for consideration via the Certification / Registration Body. If a qualification is valid it will be added to this Qualifications Guide by the EAS Management Committee and published at the earliest opportunity. Contact details for the Certification / Registration Bodies are available [here](#).

## ECS Cardholders

Qualifications referenced in Tables 4B to 4F may be evidenced by the individual providing their ECS card information (either ECS card number, image or CPD record) which can be freely verified using the ECS Check systems or CSCS Smart Check App.

An ECS Registered Electrician Gold Card with the occupation of Installation Electrician, which will show the relevant version of BS 7671, should typically be sufficient to demonstrate the qualification requirements in Tables 4B to 4E. A grading of Approved Electrician may be sufficient to demonstrate compliance with the qualification requirements of Table 4F.

An ECS Card with the occupation of Maintenance Electrician may be suitable if the underpinning qualifications align with requirements of Tables 4B to 4F.

Where an ECS card is or has been held, ECS can verify if an individual's qualifications are sufficient when qualification certificates are inaccessible or unavailable. If a Certification / Registration Body wishes to develop an application programming interface (API) into the ECS database for automated verification of qualifications held, further information can be sought by contacting ECS directly [here](#).

**Table 4A Overview of Applicable Minimum Technical Competence Requirements by Work Category**

Work Category*	Underpinning Core Technical Competence		Wiring Regulations	Initial Verification	Periodic Inspection and Testing
	Dwellings	All			
A1 Electrical installations up to and including 1000 V AC or 1500 V DC	Table 4B	Table 4C	Table 4D	Table 4E	Table 4F
A1.1 Dwellings (BS 7671)	✓	✓	✓	✓	-
A1.2 Other than Dwellings (BS 7671)	-	✓	✓	✓	✓
A1.3 Temporary electrical systems (BS 7909)	-	✓	✓	✓	✓
A1.4 Dwellings - defined scope (BS 7671)	✓	✓	✓	✓	-
A2 Periodic inspection and testing					
A2.1 Dwellings (BS 7671)	-	✓	✓	-	✓
A2.2 Other than Dwellings (BS 7671)	-	✓	✓	-	✓

\*For full details of the scope of the work categories above refer to Appendix 1 of the [Electrotechnical Assessment Specification](#).

**Table 4B Underpinning Core Technical Competence, limited to Electrotechnical Work in dwellings only**

Route	Recognised Qualifications or Equivalent
1	Level 3 Certificate in Installing, Testing and Ensuring Compliance of Electrical Installations in Dwellings
2	Industry-approved apprenticeship and recognised historical industry qualifications
3	Electrotechnical Experienced Worker Assessment, previously known as Mature Candidate Assessment, via the Recognition of Prior Experiential Learning (RPEL)

**Table 4C Underpinning Core Technical Competence, all Electrotechnical Work**

Route	Recognised Qualifications or Equivalent
1	Level 3 Electrotechnical apprenticeship, incorporating end point assessment of competence
2	Industry-approved apprenticeship and recognised historical industry qualifications
3	Electrotechnical Experienced Worker Assessment, previously known as Mature Candidate Assessment, via the Recognition of Prior Experiential Learning (RPEL)

**Note:** For those persons undertaking Assessment for work category A1.3 Temporary electrical systems covered by BS 7909 (as amended), as defined in Appendix 9 of the [Electrotechnical Assessment Specification](#), this route can be augmented by 'C&G 181 Entertainment and Theatre Electrician' or equivalent.

**Other Required Qualifications**

The applicant shall hold the following qualifications, in accordance with the requirements of Table 4A.

Table	Purpose	Qualification
4D	Wiring Regulations*	Level 3 Award in the Requirements for Electrical Installations: BS 7671 (as amended)
4E	Initial Verification*	Level 3 Award in the Initial Verification of Electrical Installations
4F	Periodic Inspection	Level 3 Award in the Periodic Inspection and Testing of Electrical Installations

\*The Level 3 Installation / Maintenance Electrician apprenticeship qualifications (C&G 5357 / EAL 7345) and Level 3 NVQ diploma (C&G 2357 / EAL 1605) include the requirements of Tables 4D and 4E. If separate qualification certificates have not been issued, the Awarding Organisation or training provider can provide evidence to verify that the current version of the wiring regulations is held.

### **TABLE 4B UNDERPINNING CORE TECHNICAL COMPETENCE, LIMITED TO ELECTROTECHNICAL WORK IN DWELLINGS ONLY**

#### **ROUTE 1 – CURRENT QUALIFICATIONS**

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 Certificate in Installing, Testing and Ensuring Compliance of Electrical installations in Dwellings	<a href="#">EAL</a>	<a href="#">600/7695/1*</a>
	<a href="#">LCL Awards</a>	<a href="#">601/7876/0</a>

\*The last registration date for this qualification was 31/09/2022 and the certification end date is 30/09/2023.

#### **ROUTE 1 – OLDER QUALIFICATIONS**

Either no longer available to new learners or no longer awarded.

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 Certificate in Installing, Testing and Ensuring Compliance of Electrical Installations in Dwellings (QCF)	<a href="#">City &amp; Guilds</a>	<a href="#">600/7888/1</a>
Level 3 Certificate in Inspection, Testing, Design and Certification of Electrical Installations	<a href="#">City &amp; Guilds</a>	<a href="#">100/3599/0</a>

**TABLE 4B UNDERPINNING CORE TECHNICAL COMPETENCE, LIMITED TO ELECTROTECHNICAL WORK IN DWELLINGS ONLY**

**ROUTE 2 – LEVEL 3 ELECTROTECHNICAL APPRENTICESHIP, OR EQUIVALENT, INCORPORATING END POINT ASSESSMENT OF COMPETENCE**

Region	Qualification Title	AO/Qualification Code	Qualification Number

		<a href="#"><u>EAL</u></a>	<a href="#"><u>601/7345/2</u></a>
ENGLAND	Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (buildings, structures and the environment), includes integrated AM2 assessment of competence	<a href="#"><u>City &amp; Guilds 2357-13</u></a>	<a href="#"><u>501/2232/0</u></a>
		<a href="#"><u>EAL</u></a>	<a href="#"><u>501/1605/8</u></a>
WALES	Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (buildings, structures and the environment), includes integrated AM2 assessment of competence	<a href="#"><u>City &amp; Guilds 2357-13</u></a>	<a href="#"><u>501/2232/0</u></a>
		<a href="#"><u>EAL</u></a>	<a href="#"><u>501/1605/8</u></a>
WALES	Building Services Engineering (Level 3) - Electrotechnical Installation and AM2 assessment of competence	<a href="#"><u>EAL</u></a>	<a href="#"><u>C00/4278/8</u></a>
SCOTLAND	SVQ 3 in Electrical Installation at SCQF Level 7 and FICA assessment of competence	<a href="#"><u>SQA</u></a>	<a href="#"><u>GR5F 23</u></a>
ALL	Level 3 Diploma in Electrotechnical Studies and Practice (Military Engineering) and AM2 assessment of competence	<a href="#"><u>Defence Awarding Organisation (DAO)</u></a>	<a href="#"><u>603/2673/6</u></a>

The reference to **Region** above indicates where a qualification was available, the qualifications are acceptable for a Qualified Supervisor operating in any region of the UK.

**TABLE 4B UNDERPINNING CORE TECHNICAL COMPETENCE, LIMITED TO ELECTROTECHNICAL WORK IN DWELLINGS ONLY**

**ROUTE 2 – OLDER QUALIFICATIONS**

Either no longer available to new learners or no longer awarded.

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 NVQ in Electrotechnical Services - Electrical Installation (Building and Structures)	City & Guilds 2356	<a href="#">100/2854/7</a>
	EAL	<a href="#">100/4720/7</a>
Level 3 Diploma in Electrotechnical Services	EAL	<a href="#">500/3526/5</a>
	Lantra Awards	<a href="#">100/3104/2</a>
Level 3 IVQ Advanced Diploma in Electrical Installation and AM2 assessment of competence	City & Guilds 6161	<a href="#">500/6029/6</a>
Level 3 NVQ Diploma in Electrotechnical Services (Maintaining Electrotechnical Systems)	EAL 1604	<a href="#">501/1604/6</a>
Level 3 NVQ Electrotechnical Services (Installation, Buildings and Structures)	SQA	G7NY 23
NVQ Level 3 Electrical Installation Engineering and AM2 assessment of competence	City & Guilds 2350	N/A
NVQ Level 3 in Installation and Commissioning Electrotechnical Systems and AM2 assessment of competence	City & Guilds 2355	Q1052155
Level 3 Certificate in Electrical Installation Work C Course	City & Guilds	<a href="#">100/1291/6</a>
Installing and Commissioning Electrotechnical Systems: Electrician at Level 3 and FICA assessment of competence	SVQ	N/A
SVQ Electrotechnical Services (Electrical Installation Building and Structures) Level 3 and FICA assessment of competence	SVQ	N/A
SVQ Electrical Installation Level 3 and FICA assessment of competence	SVQ	G9FA 23
SJIB Craftsman Certificates and FICA assessment of competence*	SJIB	N/A
Joint Apprenticeship Council Electrical Contracting Industry in Scotland Craftsman's Certificate and FICA assessment of competence*	SJIB	N/A
Electrical Installation Course (A or B Certificate)	East Midlands Educational Union	N/A
Electrical Installation Course (A or B Certificate)	Union of Lancashire and Cheshire Institutes	N/A
Electrical Installation Course (A or B Certificate)	Welsh Joint Education Committee	N/A
Electrical Installation Course (A or B Certificate)	Yorkshire Council for Further Education	N/A
Course B Certificate in Electrical Installation Work (51A or 51B)*	City & Guilds 51A or 51B	N/A

\*Formal training programmes prior to 1994 will probably have followed an apprenticeship training programme. If this is the case then the final Apprenticeship Deeds or Apprentice Completion Certificate can be provided in lieu of the AM2.

**TABLE 4B UNDERPINNING CORE TECHNICAL COMPETENCE, LIMITED TO ELECTROTECHNICAL WORK IN DWELLINGS ONLY****ROUTE 2 – OLDER QUALIFICATIONS (Continued)**

Either no longer available to new learners or no longer awarded.

Qualification Title	AO/Qualification Code	Qualification Number
Certificate in Electrical and Electronic Craft Studies*	City & Guilds 236	N/A
Part Two Certificate in Electrical Installation Work and AM2 assessment of competence*	City & Guilds 2361 / 2362	N/A
Part Two Certificate in Electrical Installation Competencies and AM2 assessment of competence*	City & Guilds 2367 / 2368	N/A
Electrical Installation Theory and Practice Part 2 and AM2 assessment of competence*	City & Guilds 2360	N/A
Electrical Installation Competencies Part 2 and AM2 assessment of competence*	City & Guilds 2360	N/A
Electrical Installation Work Services and AM2 assessment of competence	City & Guilds 2369	N/A
The Electrician's Certificate	City & Guilds	N/A

\*Formal training programmes prior to 1994 will probably have followed an apprenticeship training programme. If this is the case then the final Apprenticeship Deeds or Apprentice Completion Certificate can be provided in lieu of the AM2.

## TABLE 4B UNDERPINNING CORE TECHNICAL COMPETENCE, LIMITED TO ELECTROTECHNICAL WORK IN DWELLINGS ONLY

### ROUTE 3 – EXPERIENCED WORKER

This route is available where the scheme applicant does not fit into Route 1 or 2. If this entry route is utilised for an applicant, then the applicant **MUST** hold the Experienced Worker qualification and the appropriate industry achievement measurement competency assessment (AM2, AM2E or AM2ED).

The Experienced Worker Assessment is aligned to the Level 3 Electrotechnical apprenticeship standard, it recognises existing industry work experience and prior learning carried out to date. The Experienced Worker Assessment is only for individuals who have been working in the electrotechnical industry as a practicing electrician for a minimum of 5 years full-time and are able to demonstrate relevant on-site evidence of performance in their current role.

### ROUTE 3 - CURRENT QUALIFICATIONS

This is the [Electrotechnical in Dwellings Experienced Worker Assessment](#). Registrations start date July 2023.

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 Electrotechnical in Dwellings Experienced Worker Qualification and AM2ED assessment of competence	<a href="#">EAL</a>	<a href="#">610/2859/9</a>

This is the [Electrotechnical Experienced Worker Assessment](#). Registrations start date July 2020.

Qualification Title	AO/Qualification Code	Qualification Number

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 Award in Electrical Installation Inspection, Testing, Certification and Reporting	<a href="#">EAL</a>	<a href="#">603/2625/6</a>
Level 3 Award in the Initial Verification, Periodic Inspection, Testing, Condition Reporting and Certification of Electrical Installations	<a href="#">LCL Awards*</a>	<a href="#">601/5928/5</a>
Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations	<a href="#">EAL</a>	<a href="#">600/4338/6</a>
	<a href="#">LCL Awards*</a>	<a href="#">601/5930/3</a>
Level 3 Award in Periodic Inspection and Testing of Electrical Installations	<a href="#">City &amp; Guilds 2391-51</a>	<a href="#">603/1273/7</a>
Level 3 Award in Initial and Periodic Inspection and Testing of Electrical Installations	<a href="#">City &amp; Guilds 2391-52</a>	<a href="#">603/1275/0</a>
Customised Award in Inspection & Testing of Electrical Installations including Periodic Inspection	<a href="#">SQA [SELECT]</a>	214

\*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

**TABLE 4F PERIODIC INSPECTION**

**Older Qualifications**

Either no longer available to new learners or no longer awarded.

Qualification Title	AO/Qualification Code	Qualification Number
Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations (QCF)	City & Guilds 2395	<a href="#">600/3759/3</a>
	Logic Certification	<a href="#">600/7247/7</a>
Level 3 Award In the Periodic Inspection, Testing and Certification of Electrical Installations	City & Guilds	<a href="#">600/4693/4</a>
Level 3 Certificate in Inspection, Testing and Certification of Electrical Installations	City & Guilds 2391	<a href="#">100/1293/X</a>
Level 3 Certificate in the Certification of Electrical Installations (inspection, testing and certification of electrical installations)	City & Guilds 2391	<a href="#">500/3517/4</a>
Level 3 Diploma in Inspecting and Testing Electrotechnical Systems and Equipment	EAL	<a href="#">500/3542/3</a>
NAPIT Certificate in Inspection and Testing	NAPIT NA2391	N/A
NAPIT Certificate in Inspection and Testing	NAPIT NA2391-5	N/A
Customised Award in Inspection and Testing of Electrical Installations to BS 7671: 2008 (2011) (17th Edition)	SQA [SELECT]	N/A
Customised Award in Inspection and Testing, including Periodic Inspection	SQA [SELECT]	N/A

## Insufficient Qualifications

This section lists technical knowledge qualifications that are commonly presented by applicants but, held alone, are insufficient. Technical knowledge qualifications are important to demonstrate understanding. However, the guiding principle is that qualifications are required which evidence sufficient workplace performance with robust assessment to demonstrate occupational competence, in line with recognised industry standards.

Other qualifications may have electrotechnical content, however are more focused on engineering disciplines and therefore do not fully align with the Tables 4B to 4F.

For qualifications from overseas, including the Republic of Ireland (ROI), please see the guidance for Qualifications from Outside the UK on the following page.

For further information regarding suitability and next steps, please contact [The Electrotechnical Skills Partnership \(TESP\)](#).

Qualification Title	AO/ Qualification Code	Reason	Notes
Certificate in Electrotechnical Technology - Level 3	City & Guilds 2330	These are classroom-based technical knowledge qualifications. They are part of / a pre-requisite to acceptable work-based evidence qualifications, such as the Installation / Maintenance Electrician or Domestic Electrician apprenticeship, Level 3 NVQ with AM2 or the Experienced Worker Assessment (EWA) all with the relevant version of AM2 (AM2S, AM2 and AM2E respectively).	Refer to the Electrical Careers website for further guidance <a href="#">below for link</a>
Certificate in Knowledge of Electrical Installation Engineering - Level 3	City & Guilds 2351		
Diploma in Electrical Installations (Buildings and Structures)	City & Guilds 2365		
Level 3 Advanced Technical Diploma in Electrical Installation	City & Guilds 8202-30		
Level 3 Diploma in Electrical Installation	EAL 9331		
National Certificate Building Services Engineering (Electrical Installations)	BTEC		
Level 3 Diploma in Commissioning and Installation	EAL 0733		

Guidance on industry approved training routes and suggested next steps to obtain further recognised qualifications to apply to a Certification / Registration Body can be found on the [Electrical Careers website](#).

[The Electrotechnical Skills Partnership \(TESP\)](#) also provides guidance on electrotechnical qualifications to individuals and organisations.

## Qualifications from outside the UK

When an Qualified Supervisor applicant has been trained outside the UK they need to demonstrate that they have fully met the same UK qualification standards as if they had been trained in the UK.

The Electrotechnical Skills Partnership (TESP) and ECS have developed a new service with the qualifications recognition body Educational Counselling and Credit Transfer Information Services (Ecctis), formerly known as UK Naric, that will map non-UK electrical qualifications against the specific knowledge requirements of the Experienced Worker Assessment referenced in this Qualifications Guide.

The Electrotechnical Experienced Worker Assessment enables those who trained outside of the UK to demonstrate they meet the requirements of the relevant underpinning core technical competence referred to in Table 4A of this Guide.

In many cases, the applicant's existing qualifications will be recognised. However, in all cases, existing qualifications must be assessed and verified that they meet the same criteria as the UK requirements by taking the Ecctis Electrotechnical Skills Statement.

The service will provide the Qualified Supervisor applicant with an 'Industry Skills Statement' – further information can be found on the [Ecctis website](#).

There will be no exemptions from the practical performance elements – even if the Qualified Supervisor applicant has significant practical experience of working overseas, they will still need to be working in the UK to complete the practical elements of the Experienced Worker Assessment. Practical assessments must be completed using work within the UK which can be verified/observed.
